Type genus of the Amphioxidae.

- *Understanding "genus amphioxus" helps you talk about this topic clearly.*
- *The article explained what "genus amphioxus" means with a simple example.*

---

genus eriogonum *(noun)*

North American herbs of the buckwheat family.

- *They discussed "genus eriogonum" during the group presentation.*
- *She wrote a short paragraph that included "genus eriogonum."*

---

genus genista *(noun)*

Chiefly deciduous shrubs or small trees of Mediterranean area and western Asia: broom.

- *They discussed "genus genista" during the group presentation.*

- *The article explained what "genus genista" means with a simple example.*

---

genus ichthyosaurus *(noun)*

Type genus of the Ichthyosauridae.

- *The article explained what "genus ichthyosaurus" means with a simple example.*
- *Understanding "genus ichthyosaurus" helps you talk about this topic clearly.*

---

genus ligustrum *(noun)*

Genus of Old World shrubs: privet.

- *He looked up "genus ligustrum" because he had never seen it before.*
- *In class, the teacher used "genus ligustrum" to mean genus of old world shrubs: privet.*

---

genus paphiopedilum *(noun)*

Horticulturally important genus of mainly terrestrial orchids including many hybrids; southeastern Asia and Indonesia to Philippines and Solomon Islands; Paphiopedilum species sometimes included in genus Cypripedium.

- *The article explained what "genus paphiopedilum" means with a simple example.*
- *In class, the teacher used "genus paphiopedilum" to mean horticulturally important genus of mainly....*

---

genus phalacrocorax *(noun)*

Type genus: coextensive with the family Phalacrocoracidae.

- *They discussed "genus phalacrocorax" during the group presentation.*
- *He looked up "genus phalacrocorax" because he had never seen it before.*

---

genus punica *(noun)*

Coextensive with the family Punicaceae.

- *In class, the teacher used "genus punica" to mean coextensive with the family punicaceae.*
- *They discussed "genus punica" during the group presentation.*

---

genus sarcocystis *(noun)*

Chief genus of the order Sarcosporidia.

- *The article explained what "genus sarcocystis" means with a simple example.*
- *They discussed "genus sarcocystis" during the group presentation.*

---

genus scabiosa *(noun)*

Annual or perennial herbs or subshrubs; mainly Mediterranean.

- *They discussed "genus scabiosa" during the group presentation.*
- *The article explained what "genus scabiosa" means with a simple example.*

---

genus sceloporus *(noun)*

Spiny lizards.

- *She wrote a short paragraph that included "genus sceloporus."*
- *Understanding "genus sceloporus" helps you talk about this topic clearly.*

---

genus sclerotium *(noun)*

Form genus of sterile imperfect fungi; many form sclerotia; some cause sclerotium disease in plants.

- *They discussed "genus sclerotium" during the group presentation.*
- *In class, the teacher used "genus sclerotium" to mean form genus of sterile imperfect fungi; many form....*

---

genus strelitzia *(noun)*

Small genus of large perennial evergreen herbs having leaves resembling those of banana plants; sometimes placed in family Musaceae.

- *The article explained what "genus strelitzia" means with a simple example.*
- *She wrote a short paragraph that included "genus strelitzia."*

---

genus torreya *(noun)*

Nutmeg-yews.

- *Understanding "genus torreya" helps you talk about this topic clearly.*
- *They discussed "genus torreya" during the group presentation.*

genus triturus *(noun)*

Chiefly aquatic salamanders.

- *He looked up "genus triturus" because he had never seen it before.*
- *In class, the teacher used "genus triturus" to mean chiefly aquatic salamanders.*

gorier *(adjective)*

Accompanied by bloodshed.

- *It is useful to describe something as "gorier" when it is accompanied by bloodshed.*
- *A "gorier" approach may work better in this case.*

- *She wrote a short paragraph that included "gentiana villosa."*
- *He looked up "gentiana villosa" because he had never seen it before.*

---

genus avicennia *(noun)*

Small genus of tropical shrubs or trees.

- *Understanding "genus avicennia" helps you talk about this topic clearly.*
- *In class, the teacher used "genus avicennia" to mean small genus of tropical shrubs or trees.*

---

genus bouteloua *(noun)*

Forage grasses.

- *In class, the teacher used "genus bouteloua" to mean forage grasses.*
- *The article explained what "genus bouteloua" means with a simple example.*

---

genus buxus *(noun)*

Type genus of the Buxaceae.

- *They discussed "genus buxus" during the group presentation.*
- *The article explained what "genus buxus" means with a simple example.*

---

genus catostomus *(noun)*

Type genus of the family Catostomidae.

- *He looked up "genus catostomus" because he had never seen it before.*
- *Understanding "genus catostomus" helps you talk about this topic clearly.*

---

genus cavia *(noun)*

Type genus of the Caviidae: guinea pigs.

- *Understanding "genus cavia" helps you talk about this topic clearly.*
- *He looked up "genus cavia" because he had never seen it before.*

---

genus cleome *(noun)*

Tropical and subtropical annual or perennial herbs or low shrubs.

- *She wrote a short paragraph that included "genus cleome."*
- *The article explained what "genus cleome" means with a simple example.*

---

genus dactylis *(noun)*

A monocotyledonous grass of the family Gramineae (has only one species).

- *They discussed "genus dactylis" during the group presentation.*
- *She wrote a short paragraph that included "genus dactylis."*

---

genus ercilla *(noun)*

A genus of evergreen climbers.

- *Understanding "genus ercilla" helps you talk about this topic clearly.*
- *In class, the teacher used "genus ercilla" to mean a genus of evergreen climbers.*

---

genus linaria *(noun)*

Genus of herbs and subshrubs having showy flowers: spurred snapdragon.

- *In class, the teacher used "genus linaria" to mean genus of herbs and subshrubs having showy flowers:....*
- *The article explained what "genus linaria" means with a simple example.*

---

genus lycosa *(noun)*

Type genus of the family Lycosidae.

- *They discussed "genus lycosa" during the group presentation.*
- *She wrote a short paragraph that included "genus lycosa."*

---

genus mammillaria *(noun)*

Large genus of cacti characterized chiefly by nipple-shaped protuberances or tubercles on their surface.

- *Understanding "genus mammillaria" helps you talk about this topic clearly.*
- *She wrote a short paragraph that included "genus mammillaria."*

---

genus periplaneta *(noun)*

Cosmopolitan genus of large cockroaches.

- *They discussed "genus periplaneta" during the group presentation.*
- *He looked up "genus periplaneta" because he had never seen it before.*

---

genus pithecanthropus *(noun)*

Former genus of primitive apelike men now Homo erectus.

- *The article explained what "genus pithecanthropus" means with a simple example.*
- *In class, the teacher used "genus pithecanthropus" to mean former genus of primitive apelike men now homo erectus.*

---

genus sansevieria *(noun)*

Old World tropical herbaceous perennial of the agave family; in some classifications considered a genus of Liliaceae.

- *He looked up "genus sansevieria" because he had never seen it before.*
- *They discussed "genus sansevieria" during the group presentation.*

---

genus thalictrum *(noun)*

Widely distributed genus of perennial herbs: meadow rue.

- *She wrote a short paragraph that included "genus thalictrum."*
- *He looked up "genus thalictrum" because he had never seen it before.*

---

gingered *(verb)*

Add ginger to in order to add flavor.

- *In everyday English, people use "gingered" when talking about this idea.*
- *Can you use "gingered" in a sentence that fits this situation?*

---

glabellar *(adjective)*

Of or relating to the glabella.

- *Students compared "glabellar" with similar adjectives in the lesson.*
- *Would you call this situation "glabellar"? Explain why.*

gleba *(noun)*

Fleshy spore-bearing inner mass of e.g. a puffball or stinkhorn.

- *The article explained what “gleba” means with a simple example.*
- *She wrote a short paragraph that included “gleba.”*

goldfishes *(noun)*

Small golden or orange-red freshwater fishes of Eurasia used as pond or aquarium fishes.

- *Understanding “goldfishes” helps you talk about this topic clearly.*
- *He looked up “goldfishes” because he had never seen it before.*

gorgonian *(noun)*

Corals having a horny or calcareous branching skeleton.

- *He looked up “gorgonian” because he had never seen it before.*
- *Understanding “gorgonian” helps you talk about this topic clearly.*

gorgonian coral *(noun)*

Corals having a horny or calcareous branching skeleton.

- *She wrote a short paragraph that included “gorgonian coral.”*
- *He looked up “gorgonian coral” because he had never seen it before.*

granulating *(verb)*

Form granulating tissue.

- *The coach explained when to use “granulating” and when to wait.*
- *Can you use “granulating” in a sentence that fits this situation?*

green adder’s mouth *(noun)*

North American orchid having a solitary leaf and flowers with threadlike petals.

- *He looked up “green adder’s mouth” because he had never seen it before.*
- *They discussed “green adder’s mouth” during the group presentation.*

- *In class, the teacher used "fondu" to mean cubes of meat or seafood cooked in hot oil and then....*
- *Understanding "fondu" helps you talk about this topic clearly.*

---

footwall *(noun)*

The lower wall of an inclined fault.

- *Understanding "footwall" helps you talk about this topic clearly.*
- *They discussed "footwall" during the group presentation.*

---

francium *(noun)*

A radioactive element of the alkali-metal group discovered as a disintegration product of actinium.

- *She wrote a short paragraph that included "francium."*
- *He looked up "francium" because he had never seen it before.*

---

freshet *(noun)*

The occurrence of a water flow resulting from sudden rain or melting snow.

- *The article explained what "freshet" means with a simple example.*
- *Understanding "freshet" helps you talk about this topic clearly.*

---

fritillaria affinis *(noun)*

Herb of northwestern America having green-and-purple bell-shaped flowers.

- *She wrote a short paragraph that included "fritillaria affinis."*
- *They discussed "fritillaria affinis" during the group presentation.*

---

fritz albert lipmann *(noun)*

United States biochemist (born in Germany) noted for his studies of metabolic processes (1899-1986).

- *He looked up "fritz albert lipmann" because he had never seen it before.*
- *She wrote a short paragraph that included "fritz albert lipmann."*

---

gaetan vestris *(noun)*

Italian dancing-master for Louis XVI who was considered the greatest dancer of his day; he was the first to discard the mask in mime (1729-1808).

- *In class, the teacher used "gaetan vestris" to mean italian dancing-master for louis xvi who was....*
- *Understanding "gaetan vestris" helps you talk about this topic clearly.*

---

galbanum *(noun)*

A bitter aromatic gum resin that resembles asafetida.

- *They discussed "galbanum" during the group presentation.*
- *She wrote a short paragraph that included "galbanum."*

---

gentians *(noun)*

Any of various plants of the family Gentianaceae especially the genera Gentiana and Gentianella and Gentianopsis.

- *They discussed "gentians" during the group presentation.*
- *Understanding "gentians" helps you talk about this topic clearly.*

---

genus actinomyces *(noun)*

Type genus of the family Actinomycetaceae.

- *The article explained what "genus actinomyces" means with a simple example.*
- *In class, the teacher used "genus actinomyces" to mean type genus of the family actinomycetaceae.*

---

genus carpinus *(noun)*

Mostly deciduous monoecious trees or shrubs: hornbeams; sometimes placed in subfamily Carpinaceae.

- *She wrote a short paragraph that included "genus carpinus."*
- *The article explained what "genus carpinus" means with a simple example.*

---

genus castilleja *(noun)*

Genus of western North and South American perennials often partially parasitic on roots of grasses.

- *He looked up "genus castilleja" because he had never seen it before.*
- *She wrote a short paragraph that included "genus castilleja."*

---

genus cytisus *(noun)*

Large genus of stiff or spiny evergreen or deciduous Old World shrubs: broom.

- *He looked up "genus cytisus" because he had never seen it before.*
- *They discussed "genus cytisus" during the group presentation.*

---

genus euglena *(noun)*

Type genus of the family Euglenaceae: green algae with a single flagellum.

- *She wrote a short paragraph that included "genus euglena."*
- *He looked up "genus euglena" because he had never seen it before.*

---

genus humulus *(noun)*

Hops: hardy perennial vines of Europe, North America and central and eastern Asia producing a latex sap; in some classifications included in the family Urticaceae.

- *The article explained what "genus humulus" means with a simple example.*
- *They discussed "genus humulus" during the group presentation.*

---

genus latrodectus *(noun)*

Venomous spiders.

- *Understanding "genus latrodectus" helps you talk about this topic clearly.*
- *They discussed "genus latrodectus" during the group presentation.*

---

genus lepidium *(noun)*

Cosmopolitan genus of annual and biennial and perennial herbs: cress.

- *She wrote a short paragraph that included "genus lepidium."*
- *He looked up "genus lepidium" because he had never seen it before.*

---

genus matricaria *(noun)*

Chiefly Old World strong-smelling weedy herbs; comprises plants sometimes included in other genera: e.g. Tanacetum; Tripleurospermum.

- *They discussed "genus matricaria" during the group presentation.*
- *He looked up "genus matricaria" because he had never seen it before.*

---

genus pandion *(noun)*

Type genus of the Pandionidae.

- *The article explained what "genus pandion" means with a simple example.*
- *Understanding "genus pandion" helps you talk about this topic clearly.*

---

genus pavonia *(noun)*

Genus of tropical hairy shrubs or herbs of tropics and subtropics especially South America.

- *Understanding "genus pavonia" helps you talk about this topic clearly.*
- *The article explained what "genus pavonia" means with a simple example.*

---

genus sagittaria *(noun)*

Genus of aquatic herbs of temperate and tropical regions having sagittate or hastate leaves and white scapose flowers.

- *They discussed "genus sagittaria" during the group presentation.*
- *In class, the teacher used "genus sagittaria" to mean genus of aquatic herbs of temperate and tropical....*

---

genus salpa *(noun)*

Type (perhaps sole) genus of the Salpidae.

- *The article explained what "genus salpa" means with a simple example.*
- *She wrote a short paragraph that included "genus salpa."*

---

genus sporobolus *(noun)*

Cosmopolitan annual and perennial grasses (as dropseed or rush grass).

- *He looked up "genus sporobolus" because he had never seen it before.*
- *She wrote a short paragraph that included "genus sporobolus."*

---

genus styrax *(noun)*

Deciduous or evergreen shrubs and small trees.

- *She wrote a short paragraph that included "genus styrax."*
- *Understanding "genus styrax" helps you talk about this topic clearly.*

---

genus verbascum *(noun)*

Genus of coarse herbs and subshrubs mostly with woolly leaves.

- *He looked up "genus verbascum" because he had never seen it before.*
- *They discussed "genus verbascum" during the group presentation.*

---

gimped *(verb)*

Walk impeded by some physical limitation or injury.

- *Learners should practice how to use "gimped" in real sentences.*
- *She tried to use "gimped" carefully so everyone would understand.*

---

giovanni da verrazzano *(noun)*

Florentine navigator who explored the eastern coast of North America (circa 1485-1528).

- *In class, the teacher used "giovanni da verrazzano" to mean florentine navigator who explored the eastern coast....*
- *The article explained what "giovanni da verrazzano" means with a simple example.*

---

gismo *(noun)*

A device or control that is very useful for a particular job.

- *The article explained what "gismo" means with a simple example.*
- *Understanding "gismo" helps you talk about this topic clearly.*

gladder *(adjective)*

Showing or causing joy and pleasure; especially made happy.

- *The speaker chose "gladder" because it captured the feeling precisely.*
- *Would you call this situation "gladder"? Explain why.*

- *In class, the teacher used "herniations" to mean rupture in smooth muscle tissue through which a....*
- *They discussed "herniations" during the group presentation.*

---

hibiscus esculentus *(noun)*

Tall coarse annual of Old World tropics widely cultivated in southern United States and West Indies for its long mucilaginous green pods used as basis for soups and stews; sometimes placed in genus Hibiscus.

- *The article explained what "hibiscus esculentus" means with a simple example.*
- *In class, the teacher used "hibiscus esculentus" to mean tall coarse annual of old world tropics widely....*

---

homographs *(noun)*

Two words are homographs if they are spelled the same way but differ in meaning (e.g. fair).

- *In class, the teacher used "homographs" to mean two words are homographs if they are spelled the....*
- *Understanding "homographs" helps you talk about this topic clearly.*

---

humulus *(noun)*

Hops: hardy perennial vines of Europe, North America and central and eastern Asia producing a latex sap; in some classifications included in the family Urticaceae.

- *She wrote a short paragraph that included "humulus."*
- *The article explained what "humulus" means with a simple example.*

---

hydrocracking *(noun)*

The process whereby hydrocarbon molecules of petroleum are broken down into kerosene and gasolene by the addition of hydrogen under high pressure in the presence of a catalyst.

- *He looked up "hydrocracking" because he had never seen it before.*
- *Understanding "hydrocracking" helps you talk about this topic clearly.*

---

hyperaldosteronism *(noun)*

A condition caused by overproduction of aldosterone.

- *Understanding "hyperaldosteronism" helps you talk about this topic clearly.*
- *He looked up "hyperaldosteronism" because he had never seen it before.*

---

hypogastric artery *(noun)*

The inner branch of the common iliac artery on either side of the body; divides into several branches that supply blood to the pelvic and gluteal areas.

- *Understanding "hypogastric artery" helps you talk about this topic clearly.*
- *They discussed "hypogastric artery" during the group presentation.*

---

hypogastric vein *(noun)*

A vein that unites with the external iliac vein to form the common iliac vein.

- *She wrote a short paragraph that included "hypogastric vein."*
- *He looked up "hypogastric vein" because he had never seen it before.*

---

icemen *(noun)*

A professional killer.

- *She wrote a short paragraph that included "icemen."*
- *He looked up "icemen" because he had never seen it before.*

---

ichneumonidae *(noun)*

Ichneumon flies.

- *She wrote a short paragraph that included "ichneumonidae."*
- *They discussed "ichneumonidae" during the group presentation.*

---

idahoan *(noun)*

A native or resident of Idaho.

- *He looked up "idahoan" because he had never seen it before.*
- *Understanding "idahoan" helps you talk about this topic clearly.*

---

idahoans *(noun)*

A native or resident of Idaho.

- *They discussed "idahoans" during the group presentation.*
- *She wrote a short paragraph that included "idahoans."*

---

ilex cornuta *(noun)*

Dense rounded evergreen shrub of China having spiny leaves; widely cultivated as an ornamental.

- *In class, the teacher used "ilex cornuta" to mean dense rounded evergreen shrub of china having spiny....*
- *Understanding "ilex cornuta" helps you talk about this topic clearly.*

---

inadvertence *(noun)*

The trait of forgetting or ignoring your responsibilities.

- *In class, the teacher used "inadvertence" to mean the trait of forgetting or ignoring your....*
- *He looked up "inadvertence" because he had never seen it before.*

---
